#### Customer Bulletin

Bulletin No: 09-0408  
Date: April 8, 2009  
Attn: Valued OEM Customer  
Subject: Cosmetic change-P79  
Effective: May 2009

#### Plastic Cover Modification on P79 In-Hull Transducers

Airmar has modified the urethane encapsulation process of our P79 transducer model. Effective in May 2009, we will begin shipping P79 transducers without the two urethane fill holes on the cover of the transducer. The internal construction remains unchanged and adheres to the existing specifications, therefore no product qualification is needed. The images below show the difference in appearance between the existing and new cover.

**Existing Cover (with fill holes)**

**New Cover (without fill holes)**

If you have any questions, please contact your Airmar sales representative at 603-673-9570 or email [sales@airmar.com](mailto:sales@airmar.com)

Best regards,
